SUPPLEMENTARY QUESTIONS

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

[More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.](#)

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) I understand that I may need to pay for NHS treatment outside of the GP practice
- b) I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

MEDICATION

If you are currently taking repeat medication please attach your repeat prescription counterfoil.

The practice offers the Electronic Prescription Service (EPS), which allows you to choose or "nominate" a pharmacy to get your medicines or appliances from. Your doctor will then send your prescription electronically to your nominated pharmacy. To use this service, please state your preferred pharmacy for nomination:

If you have an existing nomination outside of our area (Southampton / New Forest) it will be automatically removed unless you express a wish for it to remain unchanged.

DATA SHARING

We will not disclose your information to third parties without your permission unless there are exceptional circumstances, such as when the health or safety of others is at risk or where the law requires information to be passed on. However, your medical record is shared under the NHS with the Health and Social Care Information Centre (HSCIC), the Summary Care Record (SCR) and the Hampshire Health Record (HHR).

Care.Data is a modern information system that is being developed, which will make increased use of information from medical records with the intention of improving health services. Information will be held in a secure environment called the Health and Social Care Information Centre (HSCIC). The role of the HSCIC is to ensure that high quality data is used appropriately to improve patient care. The HSCIC has legal powers to collect and analyse data from all providers of NHS care. They are committed, and legally bound, to the very highest standards of privacy and confidentiality to ensure that your confidential information is protected at all times. The information gathered by the program can be used by NHS organisations to plan and design services better, using the best available evidence of which treatments and services have the greatest impact on improving patients' health. So ultimately, sharing your information will benefit YOU.

Summary Care Record is a record that will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had. This does not include diagnosis or procedures. Giving healthcare staff access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed.

Hampshire Health Record (HHR) is an electronic summary record for people living in Hampshire, Portsmouth and Southampton. GP Surgeries, hospitals, social care and community care teams collect information about you and store it electronically on separate computer systems. This record contains more information than the SCR, but is only available to organisations in Hampshire

EMIS Data Sharing is a real time surveillance system based from >3000 EMIS UK general practices. It forms a critical part of the UK emergency response to pandemic flu, natural chemical disasters. It collects, analyses/reports diseases rates vaccine uptake. Only data aggregated by age/sex is collected (i.e. counts of patients with diseases). No individual patient data is extracted; there is no risk to patient confidentiality. It is run as a collaboration between the University of Nottingham, EMIS Clinrisk Ltd. It is approved by the BMA, MREC, NUG and RCGP.

Studies and Trials The practice collaborates in NHS approved research trials from time to time to lead in the prevention, diagnosis, treatment and management of illness and disease in primary care.

OPTING OUT OF DATA SHARING

If you are happy for your information to be used in this way you do not have to do anything.

You have the right to prevent confidential information about you from being shared or used for any purpose other than providing your care, except in special circumstances.

To prevent your medical records from being shared please ask for an Opt Out Pack from Reception.
